

TANANA VALLEY WATERSHED ASSOCIATION
Adopt -A-Stream Program
Beaver and/or Beaver Dam Management Agreement

The Tanana Valley Watershed Association recognizes the need and desire for a healthy watershed and is entering into this collaborative relationship to contribute toward the effort of monitoring the water quality and fish and wildlife habitat of our local streams.

_____ agrees to the following guidelines:

(Your name or Stream Team name)

- 1) Adopt a section of a waterway for a minimum period of two years.
- 2) Remove beaver dam structure(s) as needed.
- 3) Be responsible for discarding beaver dam debris at the appropriate community refuse sites or arranging pick up thru the TVWA.

OR

- 4) Install water leveling device and maintain as needed.

The Tanana Valley Watershed Association agrees to the following guidelines:

- 1) Install a sign in a visible location along the adopted section with your group's name displayed.
- 2) Coordinate publicity efforts with the group to encourage local media coverage of your group's efforts.
- 3) Provide garbage bags and gloves and water leveling device materials.
- 4) Recognize you or your Stream Team as the adopting organization of this agreement and your group accepts the responsibility of removing the beaver dam or installing and maintaining a water leveling device from the following site:

This agreement will begin _____ .
