## About Tanana Valley Watershed Association

---

Do you enjoy Interior Alaskan waterways for their recreational and commercial values and opportunities like fishing, hunting, walking, biking, canoeing, river-boating, wildlife viewing, skiing, mushing, snowmachining and photography?

Do you have concerns about streambank erosion problems and loss of property along community waterbodies? Would you like to learn more about the benefits of healthy waterways, including water quality, flow, and healthy streamside (riparian) vegetation?

**If so, then please join your neighbors in the Tanana Valley Watershed Association. We are a community organization working to ensure that the recreational and economic benefits of our rivers and streams continue long into the future.**

## What We Do

---

### *Adopt-A-Stream Program*

- *Water Quality Monitoring*
- *Litter Pickup*
- *Streambank Protection*
- *Water Flow Management*

### *Annual Stream Clean-up Day*

### *Developing a Riparian Management Plan*
